| 10. | NISA AFRINA BINTI SHAZLI | 22006295 |
| 11. | RIZAN BIN RUDIN | 19001584 |

**PROBLEM**

In UTP's confession Telegram channel, students are complaining about their difficulty in studying. Some of them said that they want a study partner who can guide them while doing their revision for examination. Reactions from other readers showed that they agreed to have a study partner to ease their study problem.

**SOLUTION**

Our group came up with an idea to make a dating-like app, with the purpose only to find a study partner. Students will be given choices to choose their own study partner according to their preferences. This will fulfill the needs of the confession in the confession group and other students.
